Prepared on	23 August 2026
Purpose	Website, customer app, staff app, AI, WhatsApp and shipping compliance
Return status	☐ Complete ☐ Evidence attached ☐ Signed

CONFIDENTIAL BUSINESS DOCUMENT

A. How to complete this pack

Please write clearly or type answers into a separate document using the same section numbers. If an answer is unknown, write who will confirm it and by what date. Do not mark a legal or insurance statement as approved without supporting evidence.

- ☐ Complete the legal identity section first.
- ☐ Attach company, tax, insurance and regulatory evidence.
- ☐ Ask the accountant to confirm financial-record retention.
- ☐ Ask UK/Irish and Zimbabwe legal advisers to review the relevant sections.
- ☐ Approve or amend the AI and WhatsApp operating boundaries.
- ☐ Sign the final declaration and record an annual review date.

What this pack does not do

This document gathers the facts needed to finish compliance work. It is not a legal opinion, an insurance certificate or proof of regulatory registration. The owner remains responsible for ensuring the answers are accurate and implemented in daily operations.

6. AI and WhatsApp operating approval

The system identifies Zimmy as AI and lets a customer request a person. The owner must define the business boundaries and ensure staff coverage.

Approved WhatsApp numbers and departments

Human handoff coverage and maximum response target

Actions Zimmy may complete without staff approval

Actions that must always require a person:

- ☐ Refunds and payment adjustments.
- ☐ Insurance claims, loss, damage and disputes.
- ☐ Credit decisions or special pricing.
- ☐ Legal and data-protection complaints.
- ☐ Safety, prohibited-goods and emergency issues.
- ☐ Any decision with legal or similarly significant effect.

Approved knowledge sources and person responsible for updates

Production launch conditions
Provider approval, staffing, contracts, testing and owner sign-off

TRIAL CHANNEL RULE

The Twilio trial / sandbox is for controlled testing. Do not present it as a normal production customer channel until the production sender, provider approvals, contracts, security controls and this sign-off are complete.

7. Retention and deletion approval

Approve or correct every period. The accountant and legal adviser should confirm which financial, customs and claims records require longer retention. Keeping an invoice does not justify retaining every customer field.

Record	Proposed period	Approve	Correction / reason
AI analytics	12 months	☐ Yes	
Closed WhatsApp / support chats	24 months	☐ Yes	
Rejected / cancelled quotes	24 months	☐ Yes	
Temporary private WhatsApp invoice files	2 days	☐ Yes	
Routine driver proof photos	48 hours after verified delivery	☐ Yes	
Security and audit logs	24 months unless an incident is active	☐ Yes	
Shipment, customs, invoice and payment records	Normally up to 7 years where justified	☐ Yes	

Accountant / legal retention comments

Who checks that automated deletion runs successfully?

8. Staff, drivers and internal controls

Staff should receive written information before location, route, photography or audit monitoring is used routinely.

- ☐ Staff / driver privacy notice supplied.
- ☐ Location and monitoring policy supplied.
- ☐ No background or off-duty location monitoring.
- ☐ Staff confidentiality and acceptable-use agreement signed.
- ☐ Role access list approved and leaver process documented.
- ☐ Privacy, phishing, account-sharing and AI training completed.
- ☐ Staff can correct inaccurate performance or route information.
- ☐ Monthly access and retention checks assigned to a named person.

Person responsible for staff privacy and training

How staff consultation was completed

Approved role-to-access list attached

Location / monitoring limits or special conditions

Training date and next refresher date

9. Final owner declaration and release decision

I confirm that the information supplied in this pack is accurate to the best of my knowledge, that supporting evidence has been attached, and that I understand compliance depends on daily business practice as well as software.

- ☐ I approve the legal identity used on customer documents.
- ☐ I approve the final Privacy Notice and Terms and Conditions after professional review.
- ☐ I approve the insurance and claims wording based on the attached policy.
- ☐ I approve the data-retention schedule and automated deletion rules.
- ☐ I approve the AI / WhatsApp DPIA and human-approval boundaries.
- ☐ I approve the staff-location DPIA and monitoring limits.
- ☐ I confirm required registrations and supplier contracts are in place.
- ☐ I authorise production launch subject to the conditions written below.
